EDUCATION

Master of Computer Applications - CGPA - 9.83
Aug 2023 – May 2025
Chembur, India

Bachelor of Computer Science - CGPA - 9.72
Aug 2020 – May 2023
Thane, India

PROJECTS

Blog App | ReactJS, MongoDB, NodeJs
Jul 2024
- Designed an admin dashboard for managing posts, comments, and users with full CRUD support using MongoDB.
- Added features like search, pagination, and filtering to improve content accessibility.
- Enabled user engagement through comment functionality and intuitive navigation.
- Created a responsive website with a user-friendly dark mode toggle for enhanced interaction.
- Prioritized security with reliable authentication and efficient data management practices.

Hotel Booking | Spring Boot, ReactJS, MySQL
Aug 2024
- Developed a Spring Boot application for Hotel Bookings that offers comprehensive booking functionality.
- Implemented features allowing users to book and filter by room types.
- Managed room allocations and cancellations for admin, enhancing operational efficiency.
- Enhanced booking capabilities and designed robust search functionality.
- Integrated security leveraging JWT to ensure secure access with role-based access control.
